Notice: Following (37) successful years in the supply and installation of top quality, large trees to residential and commercial properties, the difficult decision has been made to greatly downsize and sell at absolute auction the majority of equipment and rolling stock owned and operated by Trees In Travel, LLC. Everything in the auction is owned by Trees In Travel and will sell to the highest bidder regardless of price!

Over the course of 37 years, Trees In Travel, LLC has supplied and installed first quality large trees to residential properties, commercial properties and golf courses throughout the tri-state area. Trees In Travel, LLC is known for it's attention to detail in all aspects of growing and planting large trees. Trees and Travel, LLC was founded by the husband-and-wife partnership of Doug and Connie Herrmann. Their shared love and respect for trees, and their mutual belief that quality in all that you do, and in the and the relationships that you form throughout your lifetime, truly matter.

Doug's passion for trucks, equipment and cars is evident in how he cared for his equipment and how was he was always thinking about ways to improve their use. Although not quite as passionate as Doug, Connie shared Doug's interest in trucks and equipment and supported the investment needed to maintain the trucks and equipment. Doug and Connie were extremely fortunate to have a team that shared their philosophy.

Tragically, a car accident in 2022 took the life of Doug Herrmann and left Connie with significant injuries that require ongoing rehabilitation. Trees In Travel, LLC will continue to operate but on a scale that allows Conne Herrmann to focus on her recovery while still maintaining the quality work and service that Trees In Travel, LLC is known for. Trees In Travel, LLC will no longer install the large trees, but it will continue to sell large trees and pursue other interests and opportunities with large trees.
